About the Software + Core Features

About ERPX FMS

Unified Hierarchy. Total Control.

Enterprise-grade facility management software

Built for scale, security, and performance. Trusted by enterprise organizations to streamline facility operations across multiple locations.

Centralized operational visibility

Get a single pane of glass view of locations, assets, work orders, SLAs, and workforce performance in real time.

Real-time asset and maintenance control

Monitor asset health, preventive maintenance, and breakdowns in real time to maximize uptime and reduce costs.

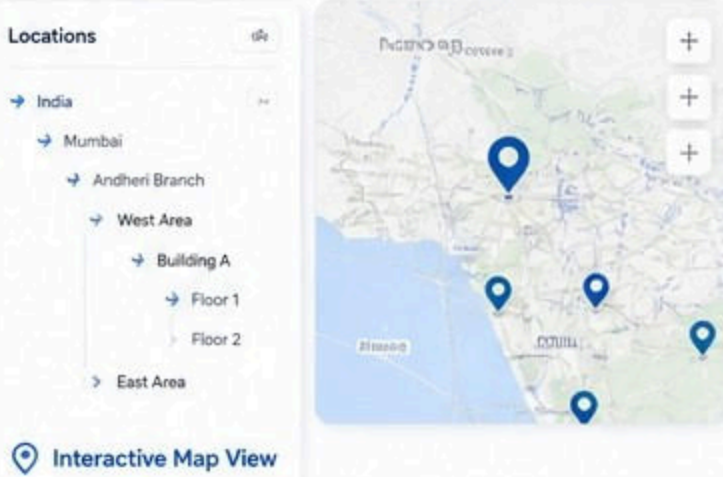

Smart automation and workflow management

Automate approvals, assignments, escalations, and notifications to improve productivity and ensure SLA compliance.

Core Features

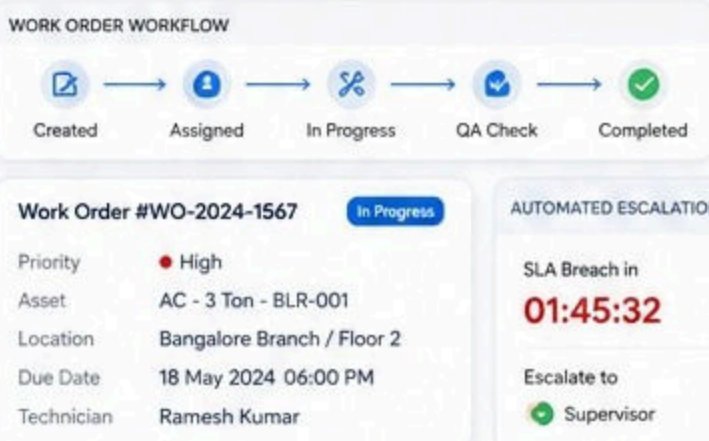

01 Dynamic Location & Hierarchy Management

Organize and manage your entire facility network with a powerful multi-level hierarchy.

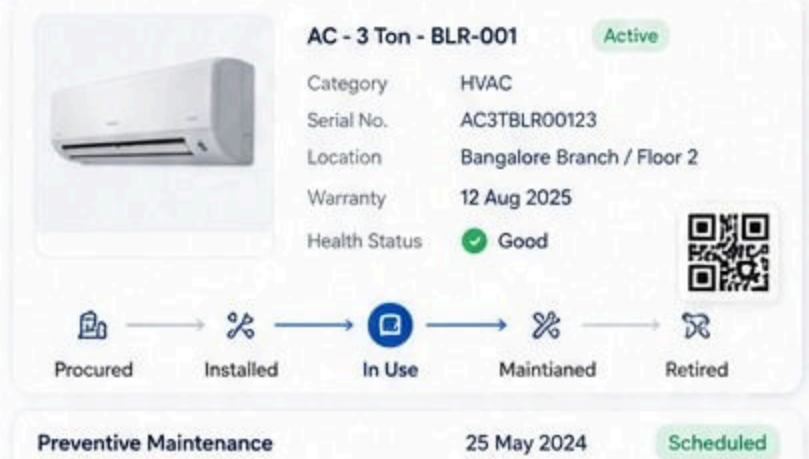

02 Automation-First Work Order Management

Create, assign, and track work orders with intelligent workflows and automated escalations.

03 Lifecycle-Focused Asset Management

Track assets across their entire lifecycle with real-time status, history, and maintenance schedules.

04 Request & Complaint Management

Capture requests/complaints from multiple channels and ensure timely resolution with SLA monitoring.

Web Portal	Ticket ID	Category	Status	SLA Status	Priority
Mobile App	RQ-2024-0891	Plumbing	In Progress	On Track	Medium
Email	RQ-2024-0890	Electrical	Open	At Risk	High
Phone	RQ-2024-0889	HVAC	Resolved	Met	Low
Walk-in	RQ-2024-0888	Cleaning	In Progress	On Track	Medium

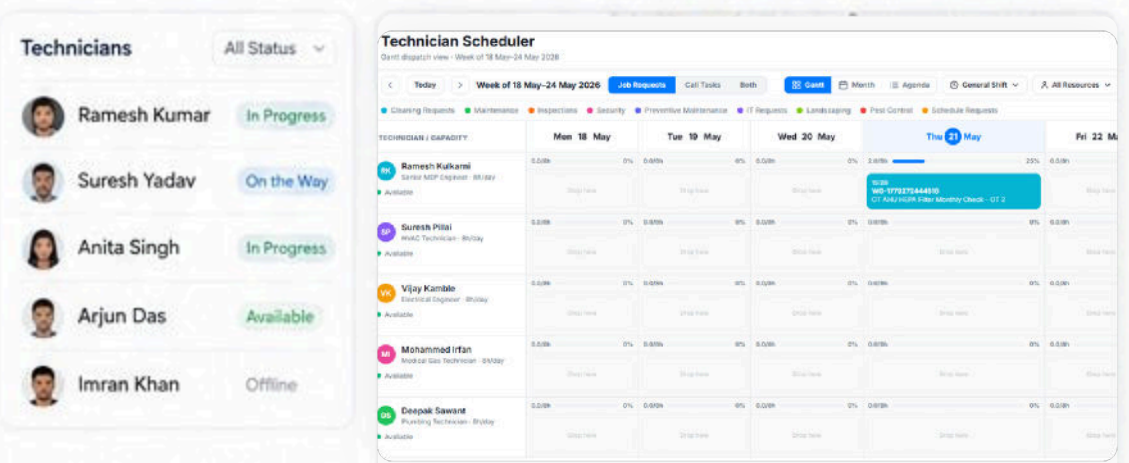

SLA Monitoring

On Track 152
At Risk 18
Breached 4

05 Technician & Workforce Management

Track technician details, assignments, and productivity to ensure faster response and accountability.

Secure & Compliant

Role-based access, data encryption and audit-ready.

Scalable & Flexible

Cloud-native architecture that scales with your business.

Data-Driven Decisions

Powerful analytics and reports for smarter decision making.

24/7 Support

Dedicated support to keep your operations running smoothly.

POWERFUL MODULES. SEAMLESS OPERATIONS.

Operations Suite

Centralize work orders, assets, inventory, vendors and workflows in one integrated platform.

Smart Scheduling

AI-powered scheduling optimizes resources, assignments and timelines for maximum efficiency.

Preventive Maintenance

Automate maintenance plans and alerts to prevent failures and ensure asset reliability.

Reports & Business Intelligence

Generate custom reports and actionable insights to drive better business outcomes.

Analytics Dashboard

Real-time KPIs, trends and performance metrics at your fingertips—anytime, anywhere.

Contracts & SLA Tracking

Track contracts, SLAs and compliance with automated alerts and performance scorecards.

DATA THAT DRIVES PERFORMANCE

Real-time visibility across assets, workflows and teams to accelerate operational excellence.

KEY BENEFITS

- Increase operational efficiency**
Streamline processes and automate workflows to do more with less.
- Reduce downtime**
Proactive monitoring and preventive maintenance keep assets running smoothly.
- Improve asset lifespan**
Regular upkeep and real-time insights extend asset life and optimize ROI.
- Faster complaint resolution**
Smart assignment and mobile access enable quick and effective resolutions.
- Multi-location centralized control**
Manage all your facilities from a single platform with role-based access.
- Data-driven decisions**
Leverage analytics and reports to make informed, impactful decisions.

BUILT FOR EVERY INDUSTRY

- Hospitals**
Ensure safety, compliance and uninterrupted patient care.
- Manufacturing**
Optimize uptime, equipment reliability and maintenance.
- Corporate Offices**
Enhance workplace experience and operational efficiency.
- Warehouses**
Maintain assets and infrastructure for smooth operations.
- Educational Campuses**
Create safe, smart and sustainable learning environments.
- IT Parks**
Ensure high availability of critical infrastructure and facilities.
- Retail Chains**
Maintain consistency and performance across all locations.
- Commercial Buildings**
Deliver exceptional facility experiences every day.

Why ERPX

Industry-tailored solutions

Purpose-built for diverse industries with deep domain understanding and best practice integration.

Expert implementation team

Experienced professionals ensure smooth onboarding, knowledge transfer, and faster time-to-value.

End-to-end deployment

From consultation to go-live and beyond—complete support across every stage of your journey.

Scalable cloud architecture

Secure, reliable, and scalable cloud infrastructure designed to grow with your business seamlessly.

Real-time visibility

Live dashboards and smart analytics deliver actionable insights for better, faster decision-making.

Dedicated support

Responsive, dedicated support team committed to your success, every step of the way.

One Platform. Complete Facility Intelligence.

Unify people, places, processes, and assets to create smarter workspaces and resilient operations.
